

Salt Tolerant Plants

It is a fact of our climate that roadside plantings will be exposed to a certain amount of salt over the year. While no plants are wholly resistant to salt, some species have a higher degree of tolerance than others. This list is meant to be used as a reference guide for planting these difficult areas.

Perennials & Grasses

Achillea	Hemerocallis
Aegopodium	Heuchera
Aquilegia Canadensis	Hosta
Armeria	Iberis
Artemesia	Limonium
Briza media (grass)	Oenothera
Calamagrostis (grass)	Perovskia
Dianthus	Saponaria
Festuca (grass)	Sedum
Helleborus	Stachys

Trees & Shrubs

Acer platanoides & cultivars	Morus alba
Aesculus hippocastanum	Myrica
Amelanchier & cultivars	Parthenocissus species
Arctostaphylos uva-ursi	Philadelphus virginialis
Aronia	Picea pungens var. glauca
Betula White barked species & cultivars	Pinus mugu & other small cultivars
Caragana	Populus species & cultivars
Clethra species	Prunus serotina
Cotoneaster	Prunus X cistena
Elaeagnus angustifolia	Quercus
Fraxinus americana	Rhus, most
Fraxinus pennsylvanica	Ribes alpinum & cultivars
Gingko biloba & cultivars	Robinia pseudoacacia
Gledisia triacanthos var. inermis	Rosa rugosa & cultivars
Hamamelis	Salix
Hybiscus syriacus	Sorbaria sorbifolia
Hydrangea species & cultivars	Sorbus
Hypericum	Tamarix ramosissima
Ilex verticillata & cultivars	Ulmus
Juniperus virginiana	Vaccinium
Larix	Viburnum opulus cultivars
